

Super Search

The Criminal Super Search is the best value and affords the best pre-employment intelligence available. This search conducts an instant multi-state search of criminal records, including the District of Columbia. Each Criminal SuperSearch report contains a wealth of information, including felony and misdemeanor records, sex-offender records from all 50 states, inmate records and arrest information. This comprehensive criminal database includes more than 290 million records.

Sex Offender Registry

The Sex Offender Registry houses sex offender records from all 50 states including District of Columbia.

Identity Verification

The Identity Verification searches more than 23 billion records on an individual's reported Social Security number and provides the ability to verify and validate who may be using a certain SSN and addresses associated with it. This is the same information used by banks, lenders and credit companies nationwide.

IntelliSearch

A search will be conducted at the county court level for felony and misdemeanors (misdemeanors where available). The IntelliSearch will identify counties of residence, which do not have Super Search coverage, where the applicant/volunteer has lived. *There are occasional county fees that may be added to package.

Terrorist search

Identifies people and organizations involved in terrorism and international narcotics. Assists in meeting OFAC requirements.

Motor Vehicle Report

State Motor Vehicle Reports are available. Cost varies by state.
